

The Dartmouth Chamber of Trade and why you should join

- **We're committed** to the overall improvement of Dartmouth business, and we're starting with the basics. The reasons we've chosen to do business in Dartmouth, and what this community can achieve if positivity comes before politics. It's a novel idea, and we already believe it's working.
- **Now is the time.** Many business people in Dartmouth understand that our town needs new, forward-looking positivity, and we invite you to join us. The Chamber of Trade has been deliberately quiet in latter 2016, as we believe the town needed to "move on" after the BID collapse.
- **If you are a business owner** in Dartmouth, consider supporting us with a premium membership / a little time - and help us develop the new Chamber into a positive asset to the town. We share a common interest in our joint success.
